### S20IS Siren

Redtronic's S20IS is an intelligent, user-friendly programmable siren system. The siren system utilises cutting-edge technology to allow the siren to produce any worldwide emergency vehicle warning siren tone within a single device. The S20IS is innovatively designed to be a durable and flexible product in one, offering IP69K water and dust resistant with its resin sealed inbuilt siren and durable nylon assembly to ensure a fit-and-forget longevity installation whilst being programmable to utilise the many tones built-in for different countries. The S20IS contains a 20w neodymium speaker and a 20w digital siren offering the same presence as a 100w alternative product, producing 115dB and includes additional features such as Night mode and synchronisation amongst also multiple triggers. The S20IS is a market leading combination product that is premium of nature but is also affordable and comes with a 2-year warranty.

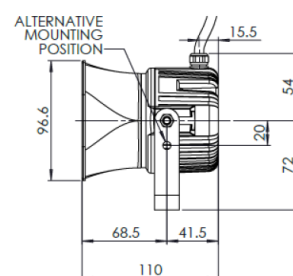

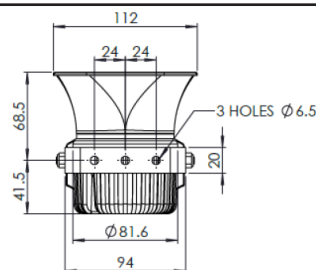

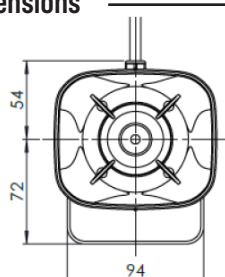

Part Number	Voltage	Amps	Decibel Output	Warranty
S20IS	11-16VDC and 20-30 VDC	2.4 each	110dB at 3.5m (single unit)	2 years

### Features and Benefits

- Compact all-in-one cutting-edge technology speaker siren
- Material: Durable nylon assembly with inbuilt resin sealed siren
- Decibel Output: 110dB at 3.5m (Single Unit)
- Voltage operation: 11-16 VDC and 20-30 VDC
- Voltage sense: 9.5VDC de-power
- Amps/current peak max: 2.4 amps each (4.8amps in total)
- Impedance: 4ohm
- Synchronisation with other S20IS Redtronic products
- Momentary & latching switch functions
- 20 watt neodymium speaker (per unit)
- 20 watt digital siren (per unit)
- EMC / R10 compliant
- KBA approved tones
- IP69K protection against dust & water ingress
- 3 positive or negative triggers (tone 1 - city, tone 2 - country, tone 3 - compressor)
- Latching tones
- Audible sense / monitor output
- Warranty: 2 years
