CA-SCA 3
for Scania Radio Premium (AUS4)
P, G, R, S series trucks (2016-)
(without preparation)

Please note: Not suitable for Basic Radio AUS3

Easy connection of an AXION camera
to the Scania Radio Premium with 7" display
(AUS4) Suitable for radio WITHOUT pre-
equipment

Direct connection to the radio,
for cameras with and without motorized
protective cover

Connections:

The CA-SCA 3 adapter is connected directly to the Scania radio. To do this, remove the two radio knobs. (just pull off)

Use a Torx screwdriver (T-20) to loosen the lock on both sides until the radio comes loose and comes out to the front.

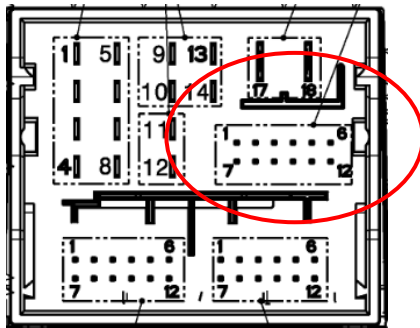

On the back the CA-SCA 3 adapter on the purple connection for camera 1 (rear view camera) or the green one for camera 2.

Up to 2 cameras can be connected directly. Connect the other side to the 4-pin Mini DIN connector on the camera or the switch box (for shutter cameras).

Using cameras with a motorized protective cover:

When using Axion shutter cameras DBC 114065-S1 or DBC 114067-SHD, the yellow cable must be pinned into the radio accordingly. (see illustration)

The open end is connected to the yellow or red cable of the shutter box, which is included with the cameras.

Quadlock connection on the radio

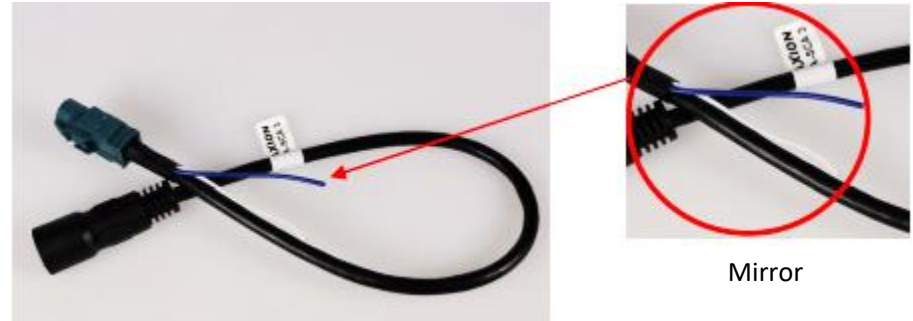

Pin 9 = output camera 1 switching signal for switch box shutter cameras

PS: The numbers are also on the

Blue (short cable) = reflection
(all AXION cameras are preset for reversing!)

If the camera image is displayed sideways, connect the two cable ends together to mirror the displayed image.

PS: Some cameras have a screw on the back of the camera housing itself, which, when moved, mirrors the image.

Mirror

Functionality:

Show camera image:

Using the camera button on the radio or the touchscreen can be done with the ignition on on the respective camera be switched. It can be switched to camera 1 and camera 2 (if available)

Switch camera on automatically:

When you engage reverse gear, the radio switches on automatically switches to the rear view camera.

(can be programmed for camera 1 at your Scania dealer if required)

Further configurations with the radio are possible. Please contact us, we will be happy to advise you.
